Saville House Holdings Ltd
The family company of Richard & Ailsa Harris

SAVILLE AND TRICOR

Saville House Holdings (‘Saville’) **was created** in 2014 **by Richard & Ailsa Harris** as a family office. Its first focus was **Founders Group of Food Companies** (‘Founders’), a venture between **Saville** and the Senft family’s **Tricor Pacific Capital** (‘Tricor’). The origin of the Harris / Senft partnership came from a Tricor investment in Golden Boy Foods in 2007 where Richard Harris served as President & CEO and Rod Senft served as Chairman, and through which management and shareholders created $300M+ of equity value during Richard Harris’ tenure as CEO, increasing EBITDA 12X.

Founders’ shareholders consider the Founders portfolio mature, and their focus is on growing and realizing value from existing companies and real estate holdings.

SAVILLE EXPANDS

Starting in 2020, Saville added new partnerships and strategies to broaden the scope of its activities. These include new fund investments with Falcon Investment Advisors, Peregrine Bay Partners, Bain Capital Ventures, Eagle Merchant Partners, Yieldpoint, and Merchant Opportunities Fund, as well as very select minority investments in growing businesses.

Saville is looking for **new opportunities to deploy capital**, either diversifying away from food / beverage through passive investments or using Richard Harris’ industry operating expertise in food / beverage as an accelerator of Saville’s investment returns.
